Basically, my function looks like this: void setRoute(void* memory, double latitude, double longitude) { vector points; vector *route = new vector; Maneuver *maneuver = new Maneuver(); char buffer[BUFFER_SIZE]; int bytesRead; while (maneuver!= NULL) { bytesRead = read(0, buffer, sizeof(buffer)); maneuver->decode(buffer); route->push_back(maneuver); maneuver = maneuver->next; } } A: You can pass any object by reference to another function. void setRoute(Maneuver *&memory, double latitude, double longitude) { //... } Spirit of Happiness (December 2013) - This issue of usaha weekly features articles on the health and wellbeing of pets. * Pet care and health options by Kiawah Animal Hospital * Pet grooming and spa services by Sooyoung Animal Spa * Please Support us with a Donation The Healing Power of Pets The recent health scare and spread of the avian flu has reminded us of the importance of our pets. You cannot go anywhere without meeting more than you can count. Here are some of the ways pets have helped people in their health. Worrying Doggie If you are looking for something to do while your pet is away from home, like a dog

Page 853 of 855. Jun 14, 2012 Split/Second: Velocity is the first video game in the series, released for Xbox, PlayStation 2 and Dreamcast on July 12, 2002, and for Microsoft Windows on October 22, 2002, by Rockstar Vienna Entertainment GmbH. Because it was released before the video game characters in the series were named, the game's protagonist has yet to be officially named. Plot The game's story revolves around successful career criminal Vince Shade, who has escaped execution, and is later targeted by a rival gang. Vince, along with his trusted partner, Melanie, who became a widower since he was executed, are assigned to kidnap the rival gang's leader. It is later revealed that Vince and Melanie's deceased wife, Amber, was also the leader of the gang. Vince and Melanie are later targeted by the same rival gang, and in order to survive, Vince and Melanie escape through a tunnel, and encounter the mysterious characters Nero, Plutus and Atlas. Gameplay Split/Second: Velocity is a 2.5D racing game. It is the first game in the series, and the first racing game to feature a 2.5D engine. All cars in the series have a "World" or "All-Out" license. All-Out licenses are used when a certain world has been completed, or in the case of a championship, when all the opponents have been taken down. Vince, the main character of the game, drives his own car, known as the Ghost. The Ghost is a high performance car, and upon reaching 100,000 miles, it transforms into a large all-terrain vehicle. The Ghost has a large amount of over-the-top features, including a windscreen that can fold down, antilock brakes, and four missile launchers. Another feature of the game is that the characters can change the gravity of the vehicles. Players can also balance the acceleration, top speed, and handling of the vehicle, and can also change the weight of the vehicle. Reception The original and 2002 version of the game received "average" reviews on both platforms according to the review aggregation website Metacritic. The 2006 Xbox 360 and PC remake of the game received "universal acclaim" reviews according to Metacritic. The 2002 version of the game won GameSpot's "Best Racing Game" award, and the 2002 PSP version of f678ea9f9e
